## **Basis of preparation**

This report presents the interim Pillar 3 disclosures of Lloyds Banking Group plc ('the Group') as at 31 March 2024 and should be read in conjunction with the Group's Q1 2024 Interim Management Statement.

These disclosures have been prepared in accordance with the Disclosure section of the PRA Rulebook. Pillar 3 templates required to be disclosed on a quarterly basis that have not been included in this report are listed in the table below along with the reason for exclusion.

| PRA reference | Template name                                      | Reason for exclusion        |
|---------------|--|-----------------------------|
| CCR7          | RWA flow statements of CCR exposures under the IMM | Not applicable to the Group |

The information presented in this Pillar 3 report is not required to be, and has not been, subject to external audit.

Interim Pillar 3 disclosures for the Group's ring-fenced banking group (Lloyds Bank plc) and large subsidiaries (Bank of Scotland plc and Lloyds Bank Corporate Markets plc) are published separately on the Group's website, located at www.lloydsbankinggroup.com/investors/financial-downloads.

|        |        | Average Net Stable Funding Ratio <sup>7</sup>                                     |                |                |                |                |                |
| 18     |        | Total available stable funding (Weighted value - average) (£m)                    | 529,657        | 530,629        | 530,063        | 529,863        | 531,276        |
| 19     |        | Total required stable funding (Weighted value - average) (£m)                     | 407,403        | 407,452        | 407,773        | 408,889        | 411,214        |
| 20     |        | Average NSFR ratio (%)  | 130%           | 130%           | 130%           | 130%           | 129%           |

<sup>1</sup> The Group applies dynamic relief in accordance with the IFRS9 transitional arrangements for capital as set out under CRR Article 473a (revised). In addition the Group applies a 100 per cent risk weight to the consequential Standardised credit risk exposure add-back as permitted under paragraph 7a of the arrangements. At 31 March 2024 dynamic relief for CETI capital amounted to £98 million (31 December 2023: £196 million).

<sup>2</sup> Although the Group does not have an Other Systemically Important Institution (O-SII) buffer, it is required to hold additional CETI capital to meet its Ring-Fenced Bank's O-SII buffer of 2.0 per cent, which equates to 1.7 per cent of the Group's total risk-weighted exposure amount.

<sup>3</sup> Represents, as a percentage, the level of CETI capital left available to meet buffer requirements after subtracting the minimum amount of CETI capital required to meet total Pillar 1 plus Pillar 2A capital requirements, also referred to as total SREP own funds requirements. The minimum CETI requirement is equivalent to 4.5 per cent (Pillar 1) plus the additional CETI SREP requirement (56.25 per cent of Pillar 2A). The Group's Pillar 2A capital requirement is around 2.6 per cent of risk-weighted assets, of which around 1.5 per cent is to be met with CETI capital.

<sup>4</sup> The average UK leverage ratio is based on the average of the month end tier 1 capital position and average exposure measure over the quarter. The average leverage exposure measure (excluding claims on central banks) for the period from 1 January 2024 to 31 March 2024 amounted to £652,887 million. The average leverage exposure measure (including claims on central banks) for the period from 1 January 2024 to 31 March 2024 amounted to £726,288 million.

<sup>5</sup> The countercyclical leverage ratio buffer (CCLB) is required to be rounded to the nearest tenth of a percentage. The Group's total leverage ratio buffer at 31 March 2024 was 1.2 per cent (31 December 2023: 1.2 per cent), of which 0.6 per cent equates to the additional leverage ratio buffer (ALRB) of 0.7 per cent applied to the Ring-Fenced Bank.

<sup>6</sup> The liquidity balances are calculated as the simple averages of month end observations over the 12 months preceding the end of each quarter.

<sup>7</sup> The net stable funding balances are calculated as the simple averages of month end observations over the 4 quarterly averages preceding the end of each quarter.

# **Key metric and overview of risk weighted exposure amounts** continued **IFRS 9-FL: Capital**

Comparison of institutions' own funds and capital and leverage ratios with and without the application of transitional arrangements for IFRS 9 or analogous ECLs.

<sup>1</sup> The consolidated position of Lloyds Banking Group plc (the resolution entity).

## Key metric and overview of risk weighted exposure amounts continued

### **Common Equity Tier 1**

The Group's common equity tier 1 (CET1) capital ratio has reduced to 13.9 per cent at 31 March 2024 (31 December 2023: 14.6 per cent). Banking business profits for the first three months of the year and the dividend received from the Group's Insurance business were more than offset by the recognition of the full impact of the announced ordinary share buyback programme, the accrual for foreseeable ordinary dividends and an increase in risk-weighted assets.

#### **Total Capital and MREL**

The Group's total capital ratio reduced to 19.0 per cent at 31 March 2024 (31 December 2023: 19.8 per cent) predominantly reflecting the reduction in CETI capital and the increase in risk-weighted assets. The minimum requirement for own funds and eligible liabilities (MREL) increased to 32.0 per cent at 31 March 2024 (31 December 2023: 31.9 per cent) primarily reflecting the issuance of new senior unsecured debt instruments. This was largely offset by the reduction in total capital resources, the derecognition of instruments with less than one year to maturity and the increase in risk-weighted assets.

#### **Risk-Weighted Assets**

Risk-weighted assets increased by £3.7 billion to £222.8 billion at 31 March 2024 (31 December 2023: £219.1 billion). This largely reflected the impact of Retail lending and a temporary increase of circa £1.5 billion that is expected to reverse in the second quarter. The impact from credit and model calibrations was minimal.

#### Leverage

The Group's UK leverage ratio reduced to 5.6 per cent at 31 March 2024 (31 December 2023: 5.8 per cent) reflecting both the reduction in total tier 1 capital and an increase in the leverage exposure measure principally related to increases in securities financing transactions and off-balance sheet items.

### Liquidity

The Group's liquidity coverage ratio (LCR) has reduced by 1 per cent to 143 per cent (based on a monthly rolling average over the previous 12 months) at 31 March 2024 (31 December 2023: 142 per cent). There were no material changes in Liquid assets and net cash outflows during the quarter. The Group's net stable funding ratio (NSFR) remains strong at 130 per cent (based on a quarterly rolling average over the previous 4 quarters) as at 31 March 2024 (31 December 2023: 130 per cent).

### OVI: Overview of risk-weighted assets

|        |  | Total R\    | Total RWA   |             |  |
|--------|--|-------------|-------------|-------------|--|
|        |  | 31 Mar 2024 | 31 Dec 2023 | 31 Mar 2024 |  |
|        |  | £m          | £m          | £m          |  |
| 1      | Credit risk (excluding CCR)  | 175,298     | 172,979     | 14,025      |  |
| 2      | Of which the standardised approach   | 22,726      | 22,074      | 1,818       |  |

| UK 8b  | Of which credit valuation adjustment (CVA)                                     | 708         | 689         | 57          |  |
| 9      | Of which other CCR   | 337         | 335         | 27          |  |
| 16     | Securitisation exposures in the non-trading book (after the cap)               | 8,737       | 8,958       | 699         |  |
| 17     | Of which SEC-IRBA approach   | 4,132       | 4,329       | 331         |  |
| 18     | Of which SEC-ERBA approach (including IAA)                                     | 1,576       | 1,642       | 126         |  |
| 19     | Of which SEC-SA approach   | 3,029       | 2,987       | 242         |  |
| 20     | Position, foreign exchange and commodities risks (Market risk)                 | 5,866       | 4,242       | 470         |  |
| 21     | Of which the standardised approach   | 2,147       | 698         | 172         |  |
| 22     | Of which IMA   | 3,719       | 3,544       | 298         |  |
| 23     | Operational risk   | 26,416      | 26,416      | 2,113       |  |
| UK 23b | Of which standardised approach   | 26,416      | 26,416      | 2,113       |  |
| 24     | Memo: Amounts below the thresholds for deduction (subject to 250% risk weight) | 10,568      | 11,028      | 845         |  |
| 29     | Total  | 222,831     | 219,130     | 17,829      |  |
|        | Pillar 2A capital requirement <sup>2</sup>                                     |             |             | 5,887       |  |
|        | Total capital requirement  |             |             | 23,716      |  |

<sup>1</sup> Non-credit obligation assets (IRB approach) predominantly relate to other balance sheet assets that have no associated credit risk.

<sup>2</sup> As at 31 March 2024, the Pillar 2A capital requirement was around 2.6 per cent of risk-weighted assets, of which around 1.5 per cent was to be met with CETI capital.

## **Credit risk**

The table below summarises the movements of risk-weighted assets for credit risk exposures under the Internal Ratings Based (IRB) Approach. The table excludes counterparty credit risk exposures, securitisation exposures, other non-credit obligation assets and equity exposures.

## CR8: Risk-weighted assets flow statements of credit risk exposures

|   |  | Total RWA quarter to<br>31 Mar 2024 |
|---|--|-------------------------------------|
|   |  | £m                                  |
| 1 | Risk weighted exposure amount as at the end of previous reporting period | 129,964                             |
| 2 | Asset size (+/-)   | 1,860                               |
| 3 | Asset quality (+/-)  | (116)                               |
| 5 | Methodology and policy (+/-)   | (12)                                |
| 7 | Foreign exchange movements (+/-)   | (10)                                |
| 9 | Risk weighted exposure amount at the end of the reporting period         | 131,686                             |

#### Key movements 31 December 2023 to 31 March 2024

- Asset size movement largely driven by the Retail portfolio.
- Asset quality movement driven by minimal change in risk mix across certain portfolios.
- Methodology and policy movement driven by optimisation activity, offset by further Secured CRD IV model updates in the quarter.

## **Market Risk**

The table below summarises the movements of risk-weighted assets for market risk exposures under the Internal Models Approach (IMA).

# MR2-B: Risk-weighted assets flow statements of market risk exposures under the Internal Model Approach

The table below summarises the movements of risk-weighted assets for market risk exposures under the Internal Model Approach (IMA).

LLOYDS BANKING GROUP Q1 2024 PILLAR 3 DISCLOSURES

#### **Liquidity** continued

#### LIQB: Qualitative information on LCR

The Group's LCR disclosure (calculated as the simple average of month end observations over the 12 months preceding the end of each quarter) was 143 per cent as of 31 March 2024, an increase of 1 per cent from the prior quarter with no material changes in Liquid assets and net cash outflows.

The Group's outflows related to derivative exposures and other collateral requirements include outflows for potential deterioration in credit rating and for the impact of an adverse market scenario on derivatives transactions. Also included are outflows on derivative contracts that have offsetting inflows recorded in 'other cash inflows'.

The Group's funding and liquidity position is underpinned by its significant customer deposit base and is supported by strong relationships across customer segments. Funding concentration by counterparty, currency and tenor is monitored on an ongoing basis and where concentrations do exist, these are managed as part of the planning process and limited by the internal funding and liquidity risk monitoring framework, with analysis regularly provided to senior management.

The Group's liquidity buffer consists almost entirely of Level 1 assets. Level 1 assets are primarily held as central bank reserves and UK government bonds.

The Group's liquidity risk management framework covers currency liquidity risk and ensures the currency denomination of LCR liquid assets is consistent with the distribution of net currency liquidity outflows. Granular LCR risk appetites by significant currency are set and monitored across tenors at Group committee level.

## Forward-looking statements

This document contains certain forward-looking statements within the meaning of Section 21E of the US Securities Exchange Act of 1934, as amended, and section 27A of the US Securities Act of 1933, as amended, with respect to the business, strategy, plans and/or results of Lloyds Banking Group plc together with its subsidiaries (the Group) and its current goals and expectations. Statements that are not historical or current facts, including statements about the Group's or its directors' and/or management's beliefs and expectations, are forward-looking statements. Words such as, without limitation, 'believes', 'achieves', 'anticipates', 'estimates', 'expects', 'targets', 'should', 'intends', 'aims', 'projects', 'plans', 'potential', 'will', 'would', 'could', 'considered', 'likely', 'may', 'seek', 'estimate', 'probability', 'goal', 'objective', 'deliver', 'endeavour', 'prospects', 'optimistic' and similar expressions or variations on these expressions are intended to identify forwardlooking statements. These statements concern or may affect future matters, including but not limited to: projections or expectations of the Group's future financial position, including profit attributable to shareholders, provisions, economic profit, dividends, capital structure, portfolios, net interest margin, capital ratios, liquidity, risk-weighted assets (RWAs), expenditures or any other financial items or ratios; litigation, regulatory and governmental investigations; the Group's future financial performance; the level and extent of future impairments and write-downs; the Group's ESG targets and/or commitments; statements of plans, objectives or goals of the Group or its management and other statements that are not historical fact and statements of assumptions underlying such statements. By their nature, forward-looking statements involve risk and uncertainty because they relate to events and depend upon circumstances that will or may occur in the future. Factors that could cause actual business, strategy, targets, plans and/or results (including but not limited to the payment of dividends) to differ materially from forward-looking statements include, but are not limited to: general economic and business conditions in the UK and internationally; acts of hostility or terrorism and responses to those acts, or other such events; geopolitical unpredictability; the war between Russia and Ukraine; the conflicts in the Middle East; the tensions between China and Taiwan; political instability including as a result of any UK general election; market related risks, trends and developments; changes in client and consumer behaviour and demand; exposure to counterparty risk; the ability to access sufficient sources of capital, liquidity and funding when required; changes to the Group's credit ratings; fluctuations in interest rates, inflation, exchange rates, stock markets and currencies; volatility in credit markets; volatility in the price of the Group's securities; tightening of monetary policy in jurisdictions in which the Group operates; natural pandemic and other disasters; risks concerning borrower and counterparty credit quality; risks affecting insurance business and defined benefit pension schemes; changes in laws, regulations, practices and accounting standards or taxation; changes to regulatory capital or liquidity requirements and similar contingencies; the policies and actions of governmental or regulatory authorities or courts together with any resulting impact on the future structure of the Group; risks associated with the Group's compliance with a wide range of laws and regulations; assessment related to resolution planning requirements; risks related to regulatory actions which may be taken in the event of a bank or Group failure; exposure to legal, regulatory or competition proceedings, investigations or complaints; failure to comply with anti-money laundering, counter terrorist financing, anti-bribery and sanctions regulations; failure to prevent or detect any illegal or improper activities; operational risks including risks as a result of the failure of third party suppliers; conduct risk; technological changes and risks to the security of IT and operational infrastructure, systems, data and information resulting from increased threat of cyber and other attacks; technological failure; inadequate or failed internal or external processes or systems; risks relating to ESG matters, such as climate change (and achieving climate change ambitions) and decarbonisation, including the Group's ability along with the government and other stakeholders to measure, manage and mitigate the impacts of climate change effectively, and human rights issues; the impact of competitive conditions; failure to attract, retain and develop high calibre talent; the ability to achieve strategic objectives; the ability to derive cost savings and other benefits including, but without limitation, as a result of any acquisitions, disposals and other strategic transactions; inability to capture accurately the expected value from acquisitions; assumptions and estimates that form the basis of the Group's financial statements; and potential changes in dividend policy. A number of these influences and factors are beyond the Group's control. Please refer to the latest Annual Report on Form 20-F filed by Lloyds Banking Group plc with the US Securities and Exchange Commission (the SEC), which is available on the SEC's website at www.sec.gov, for a discussion of certain factors and risks. Lloyds Banking Group plc may also make or disclose written and/or oral forward-looking statements in other written materials and in oral statements made by the directors, officers or employees of Lloyds Banking Group plc to third parties, including financial analysts. Except as required by any applicable law or regulation, the forwardlooking statements contained in this document are made as of today's date, and the Group expressly disclaims any obligation or undertaking to release publicly any updates or revisions to any forward-looking statements contained in this document whether as a result of new information, future events or otherwise. The information, statements and opinions contained in this document do not constitute a public offer under any applicable law or an offer to sell any securities or financial instruments or any advice or recommendation with respect to such securities or financial instruments.
