**Lloyds Banking Group plc**

Update following affirmation of all ratings

**Summary**

The A3 long term senior unsecured debt rating assigned to [Lloyds Banking Group plc](#) (LBG) reflects (1) the group's standalone creditworthiness, expressed in an a3 notional Baseline Credit Assessment (BCA); (2) moderate loss-given-failure, which results in no uplift under our Advanced Loss Given Failure (LGF) analysis; and (3) our assessment of a low probability of support from the [Government of United Kingdom](#) (Aa3 stable), which results in no uplift.

LBG's a3 BCA reflects the group's strong capital position, solid profitability, low asset risk and a stable and diversified funding profile.

LBG's insurance and wealth activities, which includes the subsidiary [Scottish Widows Limited](#) (Scottish Widows, IFRS A2 stable) provide earnings diversification to the group's banking activities carried out by the ring-fenced bank [Lloyds Bank plc](#) (LB, A1 stable/A1 stable, a3<sup>1</sup>), and the non-ring-fenced bank [Lloyds Bank Corporate Markets plc](#) (LBCM, A1 stable/A1 stable, baa3<sup>2</sup>).

## Credit strengths

- » Low asset risk
- » Strong capital
- » Stable retail funding and ample liquidity
- » Solid profitability, albeit below the 2023 peak

## Credit challenges

- » High interest rates negatively affecting credit demand and households' debt servicing capacity

## Outlook

The stable outlook on LBG's ratings reflects our view that the combined solvency and liquidity metrics will remain in line with our current assessment of moderate asset risk, solid profitability, high capitalisation, and liquidity, which moderates wholesale funding exposures.

## Factors that could lead to an upgrade of the ratings

LBG's long-term ratings could be upgraded following an upgrade of its notional BCA supported by a combination of higher capital levels, increased profitability and lower problem loans. In particular, delivery of the 2026 business plan - targeting around £1.5 billion additional revenues, leading to Return on Tangible Equity of above 15% in 2026 – would support higher and more stable profitability. LBG's senior unsecured debt ratings could also be upgraded following a significant increase in the stock of subordinated or senior unsecured debt issued by LBG.

## Factors that could lead to a downgrade of the ratings

LBG's ratings could be downgraded following a downgrade of the notional BCA driven by higher problem loans, or a material deterioration in the group's capital and asset risk metrics. The ratings of LBG could also be downgraded following a reduction in its stock of externally issued unsecured debt.

This publication does not announce a credit rating action. For any credit ratings referenced in this publication, please see the issuer/deal page on <https://ratings.moody's.com> for the most updated credit rating action information and rating history.

## Profile

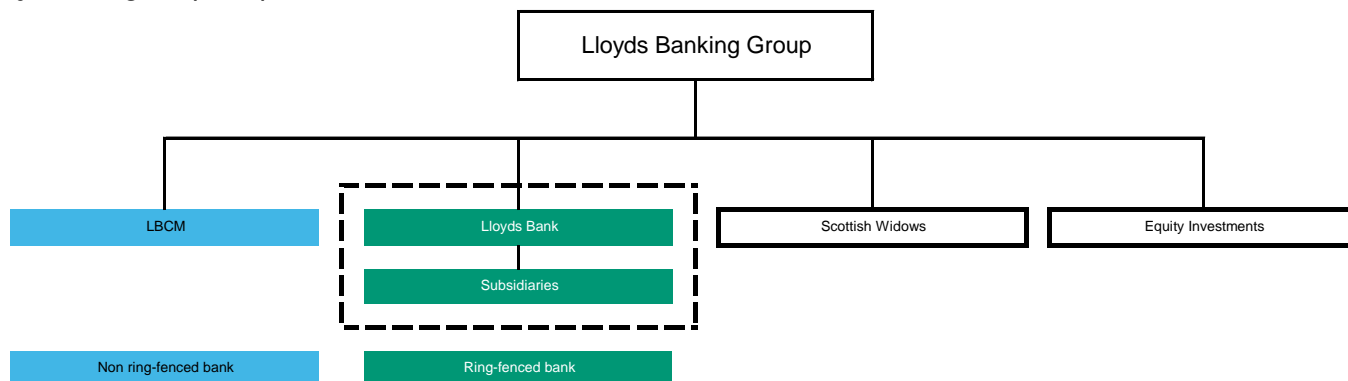

LBG is the holding company of a leading UK-based financial services group providing a wide range of banking and financial services, focused on personal and commercial customers. The group's main business activities are retail and commercial banking, as well as general insurance and life, pensions and investment provision carried out by Scottish Widows and its subsidiaries. The group operates the largest retail banking network of the UK via different brands (mainly Lloyds Bank, Halifax, Bank of Scotland), and has a large and diversified customer base.

LBG is organised along four business divisions: Retail, Commercial Banking, Insurance and Wealth, and Equity Investments and Central Items. On 1 July 2022, LBG migrated Business Banking and Commercial Cards to Commercial Banking from Retail. In addition, LBG moved Wealth from Insurance, Pensions and Investments to Retail.

Following the implementation of the UK's structural reform (so-called ring-fencing) most of LBG's banking activities, including more than 95% of the loan portfolio and most of the retail, small and medium-sized enterprise business, and corporate deposits, remained in the ring-fenced LB. In 2018, capital markets activities, business outside of the European Economic Area and lending to financial institutions were transferred to a non-ring-fenced entity, LBCM, which accounted for around 4% of the group's loans and about 9% of risk-weighted assets (RWAs) at end-2023.

Under the current structure, LBG owns directly Lloyds Bank, Scottish Widows and LBCM and has a strategic partnership with Schroders plc, which includes a joint-venture for affluent clients, and a 19.9% stake in Cazenove Capital.

Sources: Moody's Ratings, LBG

As part of its strategy, LBG aims to drive revenue growth and diversification both in its consumer and commercial businesses: in the Consumer business, it targets to deepen and innovate in consumer banking and create a new mass affluent offering; in the Commercial business, it targets to digitise and diversify its SME business and to increase its Corporate & Institutional offering and cross-selling. These initiatives should help the firm to grow revenue, with an expected overall impact expected to benefit profits from 2024 as revenue benefits outweigh net costs.

### Detailed credit considerations

The financial data in the following sections are sourced from LBG's consolidated financial statements, unless otherwise stated.

#### Low asset risk

We assign an a3 Asset Risk score, one notch below the initial score, taking into account LBG's good credit quality and its higher than some peers exposure to buy-to-let mortgages and unsecured consumer credit products.

The group's lending book is focused on prime UK residential mortgages, a low-risk segment. Within UK residential mortgages, 15% are buy-to-let loans. LBG has increased its presence in unsecured consumer finance, following the acquisition of credit card provider MBNA Ltd in 2017. IFRS9 Stage 3 loans were 2.2% of total loans at end-2023, a decrease vs the 2.3% at year-end 2022, and up from the 1.9% at year-end 2021. Stage 2 loans were 12.5% of loans at end-2023, down from 14.3% at year-end 2022 and up from 9.2% at year-end 2021.

Exhibit 4

Problem loan data from 2018 are classified under IFRS9; previous figures were reported under IAS39. Amongst problem loans we also include the purchased or originated credit-impaired that LBG classifies under Stage 3.

Loan book composition, end of December 2023

SMB (previously SME)  
Source: LBG's financial reports

We expect LBG's problem loan ratio to broadly remain at current levels over the next 12-18 months as receding inflationary pressures are likely to decrease pressure on both household and corporate finances.

In line with its business model, LBG's market risk is limited, with market risk representing just 1.9% of total RWA at end-2023. Value at risk (VaR) is low: the average one-day VaR with a 95% confidence level was £2.3 million in 2023.

The insurance division has elevated investment risk. Risk assets according to our definition, which includes real estate, equities and non-investment grade debt, are high, accounting for 3.5-4x of adjusted equity. This level is however in line with Scottish Widows' peers and partially mitigated by the insurer's liability profile. The with-profit design enables the company to share part of the decline in asset values with policyholders (subject to minimum guarantees and smoothing costs), and the hedge programme protects against the impact of declines in equities in the non-profit and the with-profit fund. The group's real estate and other illiquid asset classes are used to back the insurers' long-term illiquid annuity liabilities, minimizing reinvestment risks. At the subsidiary level this is achieved through formal risk transfers between LB and Scottish Widows.

### Strong capital

LBG's capitalisation is a key strength. Our assigned Capital score of a1, one notch below the initial score, reflects our expectation of a moderate decrease in capital ratios in the next 12-18 months.

LBG reported a Common Equity Tier 1 (CET1) capital ratio of 13.7%<sup>3</sup> at end-2023 and of 13.9% at end-March 2024. Management expects 2024 capital generation, post CRD IV and regulatory headwinds, to be c.175bps.

LBG's pro forma leverage ratio, as calculated under the current UK framework was 5.8% at end-2023 (5.6% at year-end 2022). Moody's calculated leverage stood at 5.0% at the same time and is expected to remain broadly stable.

Exhibit 6

#### Capital ratio decreased due to dividends and share buybacks LBG's CET1 and UK leverage ratios

Source: LBG's financial reports

Capital of the insurance subsidiaries is managed as part of the overall LBG strategy. In recent years Scottish Widows upstreamed a material amount of dividends, but it maintained a buffer over solvency capital requirements that is consistent with having a reasonable buffer over solvency capital requirements after a one-in-ten-year stress scenario as calculated by the group. At end-2023, the insurance division reported a pre-dividend Solvency II ratio of 186% (176% after the dividend paid to LBG in February 2024). While this is at the lower end of the range for UK peers, we believe that this is at least partly offset by a well-defined risk appetite and a risk management framework adequate to the business written.

Our tangible common equity (TCE)/Risk-weighted assets (RWA) ratio of 15.5% at end-2023 incorporates the entire equity of Scottish Widows. There are, however, limitations to capital fungibility within the group; in particular, the dividend policy of Scottish Widows is subject to its own independent board, and it requires supervisory approval. Nevertheless, we believe that in times of stress within the banking business, LBG will be able to upstream a significant amount of dividends from Scottish Widows; in the event of extreme stress, LBG may also dispose of its insurance subsidiary, providing capital benefit.

### Strong profitability reported in 2023 will moderate in 2024 and 2025

We assign a baa2 Profitability score to reflect our expectation that the group's net income will stabilize around £5.0 billion in 2024 and 2025 from £5.5 billion in 2023, due to a reduction in net interest income driven by lower margins, an increase in operating costs and a

moderate increase in the cost of risk from a low base. For 2024, management guides to a RoTE of c.13%, banking net interest margin of greater than 290 bps points, operating cost of c.£9.3 billion and credit impairments less than 30 bps of customer loans.

LBG reported a net income of £5.5 billion in 2023 (£3.9 billion in 2022), equal to a return on tangible equity (RoTE) of 15.8%. Revenue<sup>4</sup> increased 20% compared with the same period last year, driven by a stronger net interest margin and an increase in other income, partially offset by an increase in lease depreciations. Operating costs increased 17% due to higher planned strategic investments, new business costs and continued inflationary pressures. Impairment charges were £303 million (£1.5 billion in 2022), driven by a £565 million specific charges and a £257 million write-back reflecting the assessment of an improved macroeconomic outlook.

In Q1 2024, LBG reported net income to £1.2 billion, a 26% yoy decrease compared with the same period last year and equal to a RoTE of 13%. Net interest income decreased 11% due to headwinds from deposit movements and margin compression, primarily in the mortgage book, reducing net interest margin to 2.95%. Operating costs increased 17% yoy, driven by expected higher severance charges and the new sector-wide Bank of England levy<sup>5</sup> of £0.1 billion. £56 million impairment charges were modest, as a result of an improved economic outlook.

Exhibit 7

### Growth in Commercial Banking offset contraction in Retail and Consumer Underlying profits by division

2012 and 2013 figures include earnings from former banking subsidiary TSB. Prior to 2017, the Insurance and Wealth division only included insurance. 2019, 2021 and 2022 figures were as restated by Lloyds in their 2020, 2022 and 2023 accounts, respectively.

Source: LBG's financial reports

Business diversification is a key strength for LBG: the group benefits from the revenue diversification provided by its commercial lending book and its life and non-life insurance subsidiaries. At end-2023, retail revenue accounted for 52% of underlying group net income, commercial banking for 41%, and insurance, pensions and investments revenue accounted for 2%. At the same time, net interest income represented 73% of underlying group revenues and other income 27%.

### Stable retail funding

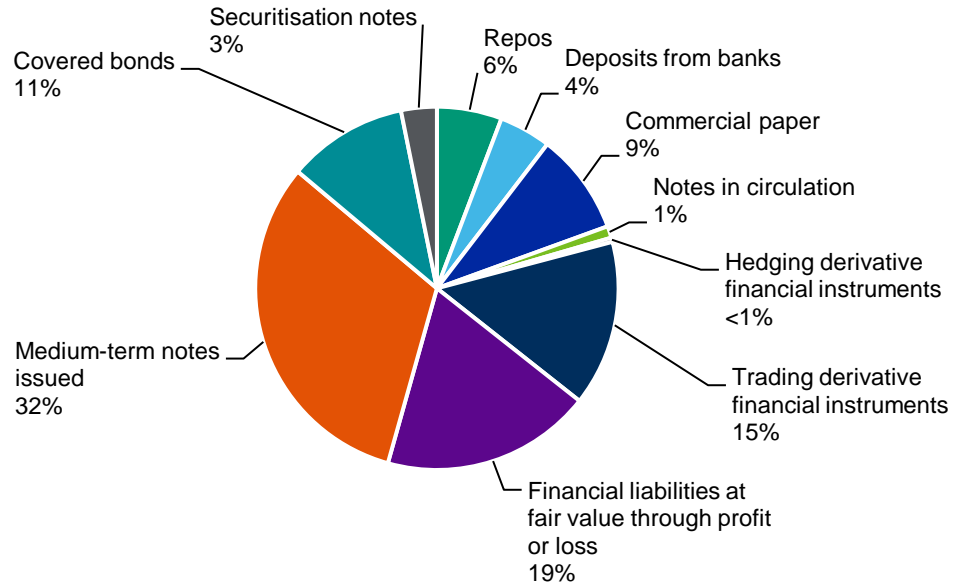

We assign an a3 Combined Liquidity score, reflecting an a3 Funding Structure score and an a3 Liquid Resources score, in line with the respective initial scores.

LBG benefits from its stable and granular retail deposit base. In the UK, its market share for personal current accounts is the highest in the country. Moody's calculated loan-to-deposit ratio for LBG, which includes certificates of deposits and term deposits, stood at 95% at end -2023.

LBG's reliance on wholesale funding is moderate, representing 19.8% of tangible banking assets at end-2023, and lower than its main UK peers. LBG's market funding composition is well-diversified; however, market funding maturing within one year is 36% of total market funds. LBG's pro forma MREL ratio was 31.9% (transitional) at end-2023.

The total outstanding drawings from the Term Funding Scheme with additional incentives for SMEs (TFSME) was stable at £30.0 billion at end-2023 (end of 2022: £30.0 billion), with £21 billion contractual maturities in 2025 and £9 billion 2027. We expect LBG to repay TFSME maturities in coming years via a combination of wholesale debt, securitisations and additional deposits.

Exhibit 8  
Market funds composition

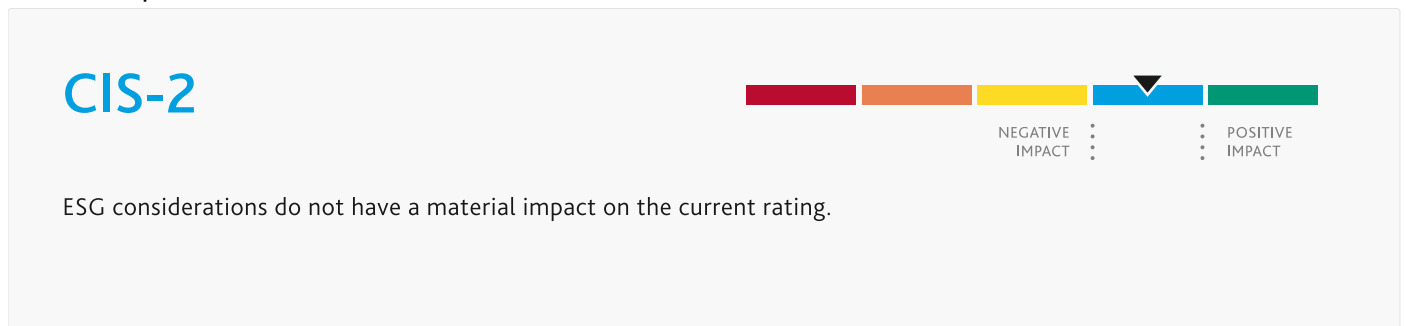

Values are as reported by LBG at 31 December 2023  
Source: LBG's financial reports

LBG's liquidity mitigates its moderate reliance on wholesale funding; material amounts of pre-positioned contingent liquidity with the Bank of England, further mitigating short term funding risk: the group's eligible assets to be included in the 142% liquidity coverage ratio (LCR) at end-2023 (144% at end of 2022) were more than three and a half times greater than wholesale maturities in the next 12 months. We expect its liquid assets to remain broadly stable.

**ESG considerations**

**Lloyds Banking Group plc's ESG credit impact score is CIS-2**

Exhibit 9  
ESG credit impact score

Source: Moody's Ratings

Lloyds Banking Group' **CIS-2** indicates that ESG considerations do not have a material impact on the rating to date. In particular, governance risks are low, and take into consideration the group's stable and credible management along with sound capital, liquidity and risk management.

Exhibit 10

**ESG issuer profile scores**

Source: Moody's Ratings

**Environmental**

Lloyds Banking Group faces moderate environmental risks mainly because of its portfolio exposure to carbon transition risk as a diversified, universal banking group. In line with peers, the bank is facing mounting business risks and stakeholder pressure to meet broader carbon transition goals. In response, Lloyds Banking Group is actively engaging in optimizing its loan portfolio longer-term toward less carbon intensive assets.

**Social**

Lloyds Banking Group faces high social risks from customer relations, because of considerable focus on consumer protection in the UK, exposing banks to potential fines from regulators and litigation from customers as well as cyber risk and the financial and reputational implications of data breaches. The group's developed policies and procedures help manage associated credit risks. The group also faces moderate social risks related to potential competition from technology firms and other disruptors.

**Governance**

Lloyds Banking Group's governance risk is low. The bank has sound board structure, risk management, and capital and liquidity management. Management has a strong track record of simplification and efficiency. The group's organizational structure is straight forward, with Lloyds Bank containing the ring-fenced business and representing more than 90% of assets and revenue. The board structure and composition is in line with industry best practice.

**Support and structural considerations****Loss Given Failure (LGF) analysis**

We apply our advanced LGF analysis to LBG because the bank is incorporated in the UK, which we consider to be an operational resolution regime.

Our analysis assumes residual tangible common equity of 3% and post-failure losses of 8% of tangible banking assets, in line with our standard assumptions. Our advanced LGF analysis indicates that LBG's senior unsecured debt is likely to face low loss-given-failure because of the loss absorption provided by the inclusion of Additional Tier 1 (AT1) instruments, the subordinated debt issued by LBG and by its subsidiaries, and the volume of LBG's senior debt itself; this results in one notch uplift from the BCA. However, we assign zero notch uplift, taking into consideration the group's future funding plans.

**Government support considerations**

We incorporate a low probability of support for the debt issued by LBG's holding company, which does not result in any uplift.

**About Moody's Bank scorecard**

Our scorecard is designed to capture, express and explain in summary form our Rating Committee's judgement. When read in conjunction with our research, a fulsome presentation of our judgement is expressed. As a result, the output of our scorecard may materially differ from that suggested by raw data alone (though it has been calibrated to avoid the frequent need for strong divergence). The scorecard output and the individual scores are discussed in rating committees and may be adjusted up or down to reflect conditions specific to each rated entity.

Moody's Investors Service, Inc., a wholly-owned credit rating agency subsidiary of Moody's Corporation ("MCO"), hereby discloses that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by Moody's Investors Service, Inc. have, prior to assignment of any credit rating, agreed to pay to Moody's Investors Service, Inc. for credit ratings opinions and services rendered by it. MCO and Moody's Investors Service also maintain policies and procedures to address the independence of Moody's Investors Service credit ratings and credit rating processes. Information regarding certain affiliations that may exist between directors of MCO and rated entities, and between entities who hold credit ratings from Moody's Investors Service, Inc. and have also publicly reported to the SEC an ownership interest in MCO of more than 5%, is posted annually at [www.moody's.com](http://www.moody's.com) under the heading "Investor Relations — Corporate Governance — Charter Documents - Director and Shareholder Affiliation Policy."

This document is intended to be provided only to "wholesale clients" within the meaning of section 761G of the Corporations Act 2001. By continuing to access this document from within Australia, you represent to MOODY'S that you are, or are accessing the document as a representative of, a "wholesale client" and that neither you nor the entity you represent will directly or indirectly disseminate this document or its contents to "retail clients" within the meaning of section 761G of the Corporations Act 2001. MOODY'S credit rating is an opinion as to the creditworthiness of a debt obligation of the issuer, not on the equity securities of the issuer or any form of security that is available to retail investors.

Additional terms for India only: Moody's credit ratings, Assessments, other opinions and Materials are not intended to be and shall not be relied upon or used by any users located in India in relation to securities listed or proposed to be listed on Indian stock exchanges.

Additional terms with respect to Second Party Opinions (as defined in Moody's Investors Service Rating Symbols and Definitions): Please note that a Second Party Opinion ("SPO") is not a "credit rating". The issuance of SPOs is not a regulated activity in many jurisdictions, including Singapore. JAPAN: In Japan, development and provision of SPOs fall under the category of "Ancillary Businesses", not "Credit Rating Business", and are not subject to the regulations applicable to "Credit Rating Business" under the Financial Instruments and Exchange Act of Japan and its relevant regulation. PRC: Any SPO: (1) does not constitute a PRC Green Bond Assessment as defined under any relevant PRC laws or regulations; (2) cannot be included in any registration statement, offering circular, prospectus or any other documents submitted to the PRC regulatory authorities or otherwise used to satisfy any PRC regulatory disclosure requirement; and (3) cannot be used within the PRC for any regulatory purpose or for any other purpose which is not permitted under relevant PRC laws or regulations. For the purposes of this disclaimer, "PRC" refers to the mainland of the People's Republic of China, excluding Hong Kong, Macau and Taiwan.
